Dear Parents & Carers,

As some families have begun to self-isolate, we have developed a list of resources to support those children who are able to do some home learning activities.

We know that you are eager to support children's learning and will appreciate that the skill and craft of teaching can be complex and should any misconceptions be taught to children, it could prove difficult to unpick them in the long term. Therefore, these suggestions are aimed in the first instance to encourage learning experiences, giving children the opportunity to practise and consolidate learning.

Should school become closed in the future, we will send out additional home learning resources which we are working on.

Year 5 & 6 have access to a maths textbook which they can use if you wish.

The list will be updated and can be found on our website under the Coronavirus tab.

Yours sincerely

Jim Nicholson  
Headteacher
